# Stephen the Great

(1438-1439 – 1504)

- ▶ *The period of the reign of Saint Voivode Stephen the Great represented a point where Romania reached a maximum development of its spiritual culture. One of the most valuable foundations of Stephen the Great is the Voroneț Monastery. It was built in the year 1488, in only three months and three weeks.*

# The Last Judgment fresco

- ▶ *On the west facade of the monastery we find the fresco of the Last Judgement – a true synthesis of the Apocalypse. The scales that will weigh people's deeds, the fight between angels and demons for their souls, Heaven, but also Hell with the river of fire are the scenes which conclude the apocalyptic representation from Voroneț.*
